Jane,

Attached is the summary of courses provided for review. We do not typically approve many Onsite courses for VT Wastewater Treatment Facility Operators, but feel there are some offered in the conference that may be of value.

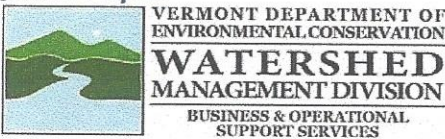

Courses highlighted yellow are **approved** for TCHs (1 hour = 1TCH) and those with redline are **denied** approval.

If you or any attendees feel credit for any denied course should be reconsidered, email a request that includes additional info and/or reasons for approving.

Please let me know if you have any questions.

Thank you.
