

## NOWRA COMMITTEE APPLICATION FORM

As a volunteer organization, NOWRA encourages members to participate on its working committees, and to support the industry in its leadership role. NOWRA's Committee Chairs are soliciting members to develop work plans and activities. Please provide the following information identified on this form and return it to the NOWRA headquarters. This response will then be given to the respective committee chairs.

**NOWRA Committees:** Please identify the committee you desire to participate and support in 2011/2012. If selecting more than one, please prioritize.

COMMITTEE	ROLE
<b>Marketing, Membership &amp; Communications</b>	Develop effective communications and promotional strategies with external partners and other interests that achieves greater public awareness of NOWRA's programs and work on behalf of the onsite industry.
<b>Education</b>	Advance member education through the NOWRA annual conference, state programs, and other venues or specialty programs. Provide opportunities for essential dialogue on innovative technologies and management through effective forums, and maintain approval of Continuing Education Units (CEU's) for all NOWRA courses.
<b>Conference Committee</b>	Serve as the lead committee for the NOWRA Annual Conference by providing an effective committee structure and knowledge of regional industry issues. Works closely with local organizational support team (if available).
<b>Technical Practices</b>	Promote sound and appropriate technical practices in the application of onsite wastewater treatment system management.
<b>Governmental Relations</b>	Establish and facilitate effective communication and monitoring strategies with local, state legislative and federal regulatory officials.
<b>External Affairs</b>	Establish and facilitate effective communication and build relationships with EPA and various national water resource related organizations (MOU Partners and others).
<b>Model Code Committee</b>	Develop and advance the Model Code Framework and related documents relative to performance standards and operational management of decentralized systems to manage the risk of harm to the human and natural environments.
<b>Member Association Leaders</b>	Serve as communication conduit between the NOWRA leadership and respective local Associations to identify membership needs, and provide essential information developed by NOWRA that contributes to professional effectiveness.
