Hi Janice,

Thanks for your questions regarding our upcoming conference.

Regarding the test questions, I don't believe we have developed any of them as yet, in part because very few final presentations have even been submitted at this point. Our plan is to develop three question tests for each of the 25- or 50-minute sessions. There are two 2-hour classes in the curriculum. I am not sure if those are the same or perhaps somewhat longer. Dr. Sara Heger, who is coordinating the online education curriculum will be developing all of the test questions. I can assure you that they will be substantive questions taken directly from the presentation. Those taking the test will need to get two of three correct in order to receive credit for the class. If they do not pass, they must retake the test, at which point they will be allowed to go back and review the material. They will not be provided the answers. Upon passage of the quiz the credit for that class will be automatically added to their certificate.

With regard to the expo hall, yes, I believe that can be done. Within our system, each exhibitor would be set up as a unique 'class' which should enable us to not only track what companies they visited, but also how long they spent in their booth or which items they accessed (i.e., videos, Powerpoint presentations, product documents, etc.) I will need to confirm this with our online education platform provider, but I am reasonably confident we can do what you are requesting. One thing about which I am unsure is whether I can also track which days they visited the expo hall, since the hall is open all three days. I will try to find out about that as well. I have a meeting with them this Friday afternoon.

I hope this is helpful. Please let me know if you have other questions. Since I have left several items a bit up in the air, I will circle back with you once I have answers.

Eric: Per our discussion, Janice Vollero, our Pennsylvania contact had questions about the curriculum summary.

Subject: RE: [External] Request for Review & Approval--Onsite Wastewater Mega-Conference

Hi Jane,

I have 2 questions:

1. Can you provide me with an example of a test at the end of a session for the CEUs?
2. We allow 1 credit for 2.5 hours of conference time. The first day only allows for 4 hours or 1 CEU. However, we do allow some of that time to be spent with the vendors. Is there a way an attendee could prove they were talking to the vendor's?

Thanks.

Janice

Thank you Jane.

We will review it and get back to you.

**Subject:** RE: [External] Continuing Education credits for PA SEOs

Hi Eric,

I just realized I did not reply to your email below.

1. Yes we will be granting you credit for your virtual conference. It is just a matter of 5 or 6 credits at this point. I will determine that based on the answer you provide concerning tracking time with the vendors after Friday.
2. We will not be extending the September 30, 2020, extended deadline for the Sewage Enforcement Officer (SEO) 2018-2020 cycle. However, credits for this conference will be applied to the 15 credit requirement for the SEO's 2020-2022 cycle.
3. I received the conference material that I need to grant credits; again, will wait on the vendor tracking.
4. Yes you are a recognized training sponsor in PA. Your sponsor ID number is 0010.

When I am done with the review, and I send out your approval letter, I will also send you a list of our active SEOs. It may be helpful for you in advertising the conference. The list has email addresses. Since it is virtual, and a new cycle for them, you may get several that are interested.

Thanks and have a great day!
