

Homeowner Training: Septic System Basics, Troubleshooting, and Tips

Maximize Your System's Longevity!

Onsite Wastewater Treatment Systems (OWTS) are used to treat wastewater from a home and return treated wastewater back into the receiving environment. They are typically referred to as **septic systems**, because most involve a septic tank for partial treatment.

The National Onsite Wastewater Recycling Association (NOWRA), SERCAP, and Communities Unlimited are hosting an in-person **no-cost training for homeowners** so that they can learn more about their system and what maintenance may be needed.

WHEN?

Wed, May 31 • 6:00 PM – 8:00 PM

WHERE?

Double Tree by Hilton Asheville Biltmore
115 Hendersonville Rd. Asheville, NC 28803

PRESENTED BY:

Dr. Sara Heger, NOWRA & University of Minnesota Dr.
John Buchanan, NOWRA & University of Tennessee

REGISTER ONLINE:

S.eventbrite.com](https://homeowner_overview_of_OWT.S.eventbrite.com)

Please note: There is no cost to attend, however advance registration is required.

WORKSHOP WILL PROVIDE INFORMATION ON:

- Necessary maintenance for typical onsite systems
- How to implement changes in your home to reduce strain on your system
- Resources for solving basic problems with your system

RCAP is an equal opportunity provider and employer and does not discriminate against qualified individuals with disabilities.

This workshop is made possible thanks to funding from the U.S. Environmental Protection Agency (EPA).

Food and refreshments will be served. If you have any allergies or dietary restrictions, please make us aware prior to the event.
