

Train-the-Trainer: Onsite Wastewater Treatment Systems (OWTS)

Enrich Your Skills and Knowledge!

The purpose of this Train-the-Trainer (TTT) workshop is to provide professionals who work with communities served by onsite or decentralized wastewater systems with learning materials that can be customized to provide interactive education about OWTS. Funds provided by EPA were used to develop the "Onsite Wastewater Treatment System User Guide" & corresponding educational materials.

Concepts covered in this training course include: the importance of wastewater treatment, an overview of treatment in an onsite system, typical onsite system features, final treatment and dispersal, management, maintenance, safety, and system troubleshooting. While the module's target audience is property owners who have an onsite system, the concepts are also applicable to the general public, realtors, local health officials, & septic system professionals.

WHEN?

Wed, May 31 & Thur, June 1

6:00 PM - 8:00 PM 8:00 AM - 12:00 PM

This is a two-part workshop. Attendance at both sessions is required to receive credit.

WHERE?

**Doubletree by Hilton Asheville Biltmore
115 Hendersonville Rd, Asheville, NC 28803**

PRESENTED BY:

**Dr. Sara Heger, NOWRA & University of Minnesota
Dr. John Buchanan, NOWRA & University of Tennessee**

REGISTER ONLINE:

BOOK YOUR HOTEL:

<https://tinyurl.com/SCPHOTEL>

WORKSHOP WILL PROVIDE INFORMATION ON:

- **OWTS components and treatment methodologies**
- **Advanced pre-treatment systems**
- **How to customize training and marketing materials based on locations and audience**

Event will start with a small community meeting with OWTS owners in attendance. This will provide an opportunity for attendees to see the materials being delivered in-person.
