

COMMUNITIES Unlimited

RESOLVING WASTEWATER TREATMENT CHALLENGES IN SMALL COMMUNITIES

GENERAL SESSION APRIL 7-8 | 8AM-4:30PM

Tulsa Technology Center 10800 N. 137th Avenue, Owasso, OK 74055

TRAIN THE TRAINER APRIL 9 | 8AM-12PM

Hampton Inn and Suites 211 W. 3rd Street, Tulsa, OK 74103

Must attend the 2-day training to attend this session

This training course aims to provide decision-makers with the information necessary to collaborate with engineers, soil professionals, construction managers, and financial personnel to get the best wastewater solution for their community. **This training has been approved by ODEQ for 12 CEU hours.*

The National Onsite Wastewater Recycling Association (NOWRA) and Communities Unlimited (CU) are hosting an in-person, no-cost training for engineers, designers, regulators, operators/service providers and others dealing with small community challenges. The goal is to provide the communities in need with the full range of options to resolve their wastewater treatment needs.

WHAT YOU'LL LEARN:

- Wastewater treatment characteristics, risks, and options
- Data required before community decisions are made
- Working with professionals
- Decentralized options and solutions for collection, treatment, dispersal, and reuse

PRESENTERS

Dr. Sara Heger, NOWRA
Dr. Bruce Lesikar, NOWRA
