

Resolving Wastewater Treatment Challenges in Small Communities

This training course aims to provide decision-makers with the information necessary to collaborate with engineers, soil professionals, construction managers, and financial personnel to get the best wastewater solution for their community.

The National Onsite Wastewater Recycling Association (NOWRA) and Midwest Assistance Program (MAP) are hosting an in-person **no-cost training for small system operators and owners** so that they can make informed decisions for their wastewater treatment needs.

When: April 7-10, 2025

Monday Train the Trainer 6:00 PM- 7:00 PM
Tuesday and Wednesday General Sessions 8:00 AM-5:00 PM
Thursday Train the Trainer 8:00 AM - 3:00 PM

Where: Hampton Inn and Suites by Hilton Des Moines Downtown

120 SW Water Street, Des Moines, IA 50309

Presented by:

Dr. Sara Heger, NOWRA, University of Minnesota
Dr. Marcia Degen, NOWRA

Please note: There is no cost to attend, however advance registration is required.

WORKSHOP WILL PROVIDE INFORMATION ON:

- Wastewater treatment characteristics, risks, and options
- Data required before community decisions are made
- Working with professionals
- Decentralized options and solutions for collection, treatment, dispersal, and reuse

RCAP is an equal opportunity provider and employer and does not discriminate against qualified individuals with disabilities.

This workshop is made possible thanks to funding from the U.S. Environmental Protection Agency (EPA).
