

# Resolving Wastewater Treatment Challenges in Small Communities

This training course aims to provide decision-makers with the information necessary to collaborate with engineers, soil professionals, construction managers, and financial personnel to get the best wastewater solution for their community.

The National Onsite Wastewater Recycling Association (NOWRA) and Great Lakes Community Action Partnership (GLCAP) are hosting an in-person **no-cost training for Small Communities, Technical Assistance Providers, Engineers/Designers, Regulators, Operators and other decentralized professionals working with Small Communities**, so that they can make informed decisions for their wastewater treatment needs.
