

# Homeowner Training: Septic System Basics, Troubleshooting, and Tips

*Maximize Your System's Longevity!*

Onsite Wastewater Treatment Systems (OWTS) are used to treat wastewater from a home and return treated wastewater back into the receiving environment. They are typically referred to as **septic systems**, because most involve a septic tank for partial treatment.

The National Onsite Wastewater Recycling Association (NOWRA) and RCAC are hosting an in-person **no-cost training for homeowners** so that they can learn more about their system and what maintenance may be needed.

## WHEN?

Tue, May 23 • 5:00 PM – 7:00 PM

## WHERE?

Northern Quest Casino, Kalispel Room  
100 N. Hayford Rd., Airway Heights, WA 99001

## PRESENTED BY:

Dr. Sara Heger, NOWRA & University of Minnesota  
Dr. John Buchanan, NOWRA & University of Tennessee

## REGISTER ONLINE:

<https://bit.ly/septicsystemsbasics>

Please note: There is no cost to attend.

## WORKSHOP WILL PROVIDE INFORMATION ON:

- How an OWTS processes wastewater
- Necessary maintenance for typical onsite systems
- How to implement changes in your home to reduce strain on your system
- Resources for solving basic problems with your system

*RCAC is an equal opportunity provider and employer and does not discriminate against qualified individuals with disabilities.*

*This workshop is made possible thanks to funding from the U.S. Environmental Protection Agency (EPA).*
